Masada Disenhouse is Deputy Director of the NYS Center for Advanced Technology in Ultrafast Photonics at the City University of New York (CUNY CAT). She is responsible for managing grant reporting, public and university relations, and grant administration for the CAT. The Deputy Director's office also assists CAT researchers with researching new grant opportunities, responding to grant solicitations and managing other state, federal, and industry grants. Masada received her Masters in physical chemistry from the University of Washington in 1994. Prior to CUNY, Masada served as Director of Special Projects and Information Services at the Community Environmental Center.
